'Epidermal' Electronics

Multimodal, Clinical Quality Data

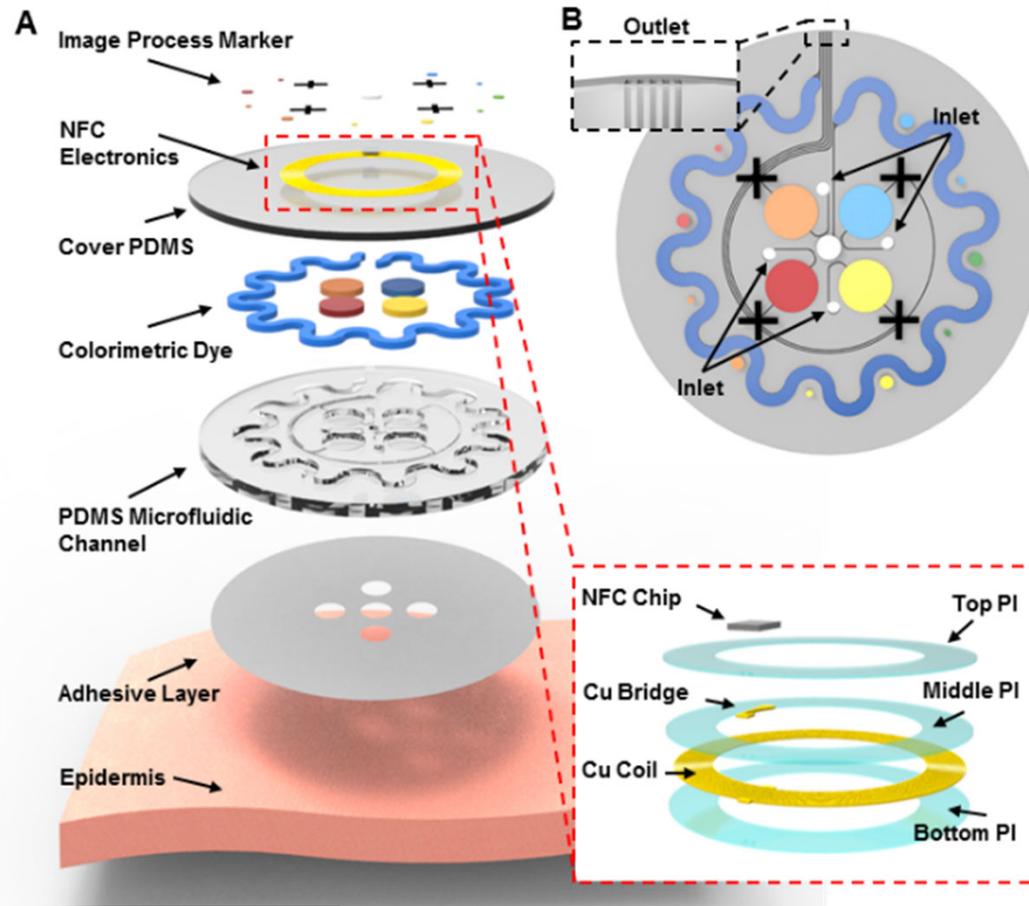

Science **344**, 70 (2014).
Science **333**, 838 (2011).

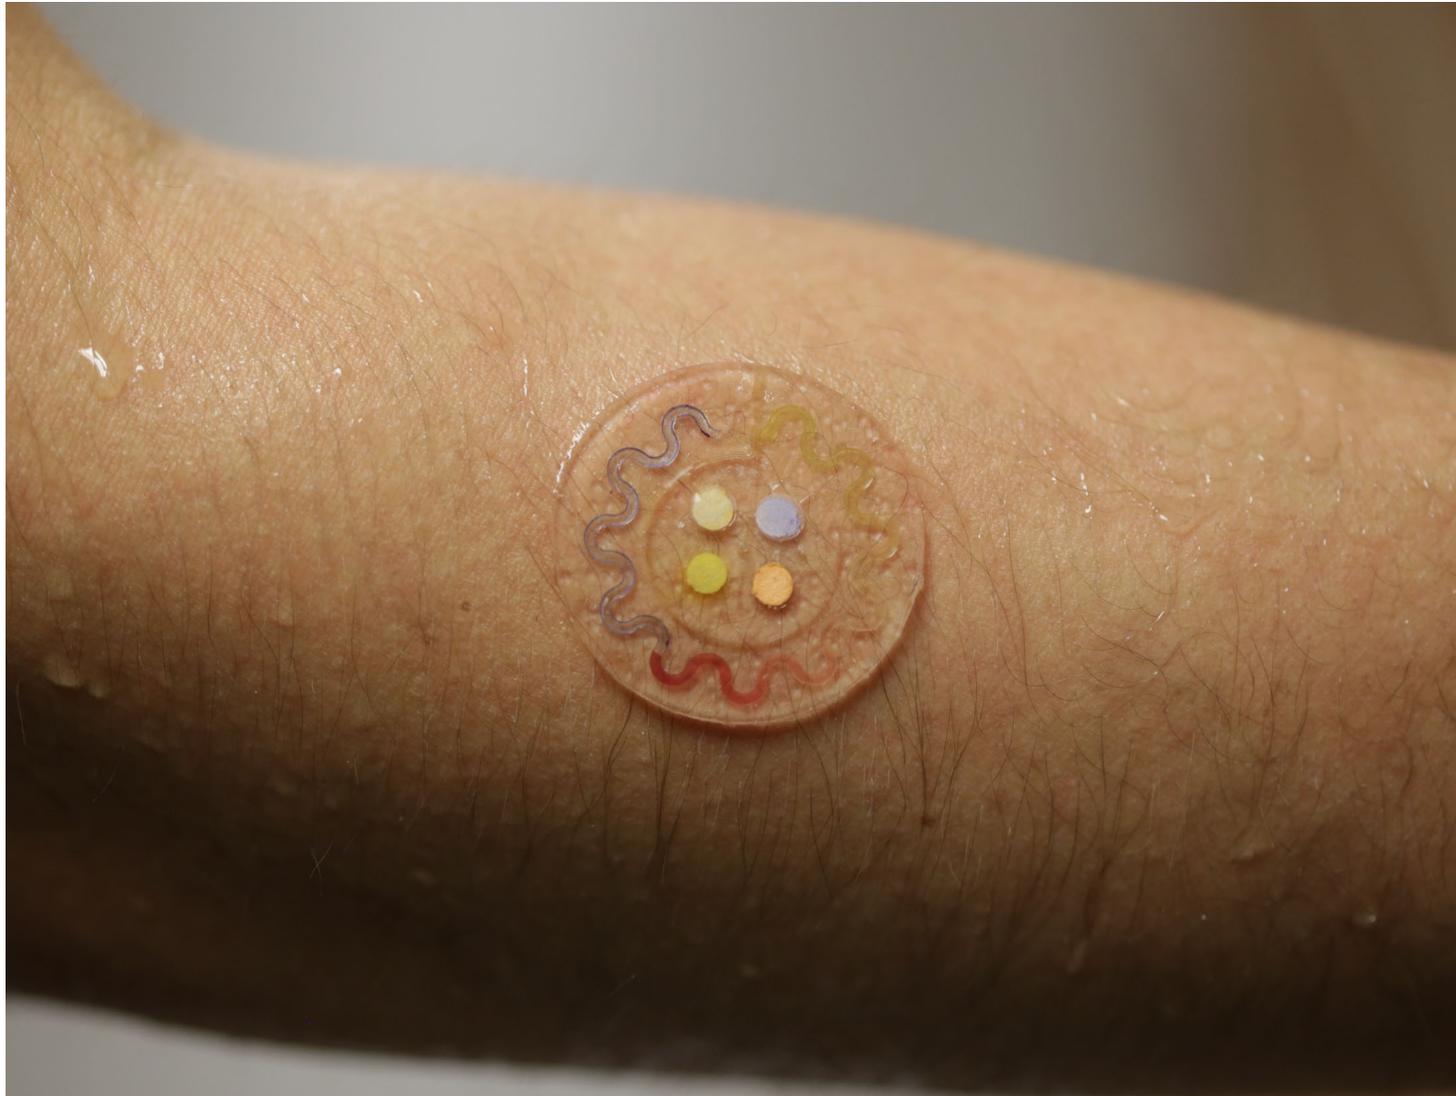

National Geographic, 2019

Epidermal Microfluidic Devices and Sweat Analytics

Sci. Transl. Med **8**, 366ra165 (2016).

Sci. Transl. Med **8**, 366ra165 (2016).

Measurement Capabilities in Epidermal Electronics

Thermal: Thermography, Thermal Transport, Hydration

Electrical: Biopotential (ECG, EMG, EEG), Hydration

Fluidic: Sweat (loss and chemistry), blood flow

Mechanical: Strain, motion, modulus, pressure

Optical: UVA/UVB, oximetry, PPG, vein mapping

Mechano-acoustic – cardiac auscultation, etc.

***Multimodal, Clinical Quality, Continuous Low Cost
& Available to Everyone***

Neonatal Intensive Care

Current

Future

26 week delivery

***IRB approved studies
Lurie Children's Hospital
~200 babies; on-going***

Scaled Deployments into India, Pakistan,

A Loneliness Meter: Mitigating Cognitive Decline

The New York Times

By CEYLAN YEGINSU JAN. 17, 2018

U.K. Appoints a Minister for Loneliness

THE TIMES OF INDIA

Do we need a loneliness minister?

Namita Devidayal, Mohua Das, Avijit Ghosh, Himanshi Dhawan | Feb 25, 2018, 02:00 IST

**The
Economist**

All the lonely people

Loneliness is a serious public-health problem

The World's First Loneliness Meter

Social interaction is one of the few interventions that slows the progression of Alzheimer's dementia.

Parameters of Interest

1. How long did anyone talk to you today?
2. How long did you talk today?
3. What is your physical proximity to others?
4. Are you eating well (swallow count)?
5. How are you sleeping?
6. Are you being physically active?

w/ Angela Roberts PhD (School of Communication) and Lee Ann Lindquist MD (Gerontology)

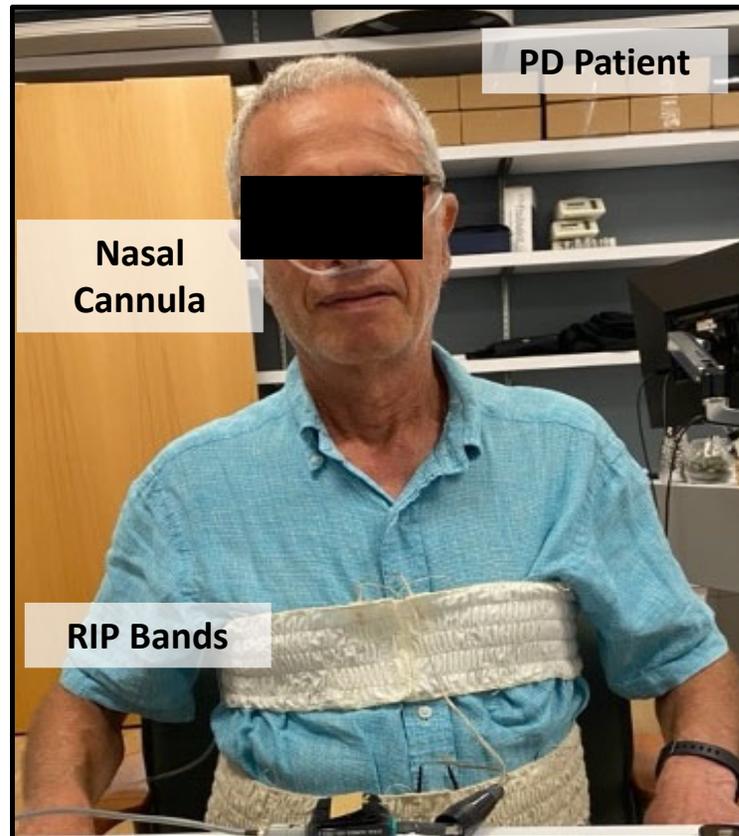

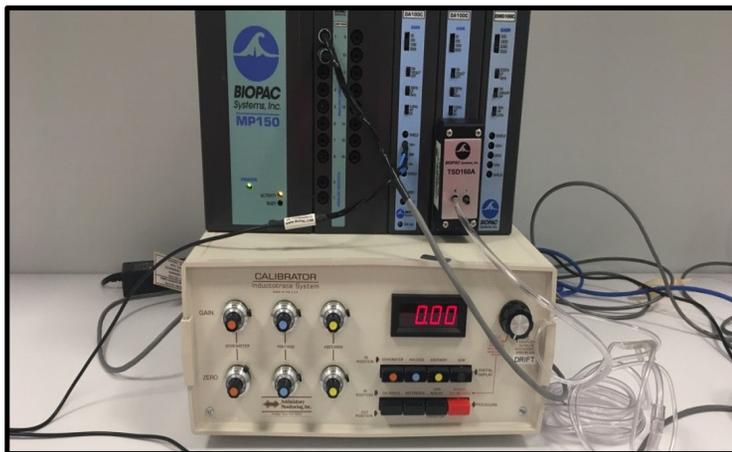

Systems for Measuring Swallowing, Respiration

1) Respiratory Inductance
